EDUCATION: Design and Algorithm, Computer Networks, Artificial Intelligence, Adv Network Security

New York Institute of Technology, Manhattan, NY
Bachelor of Science In Computer Science

Anticipated Graduation May 2026

WORK EXPERIENCE

Queens Library - Teen Tech Mentor

Queens, NY (May 2025- Present)

- Managed and maintained all tech resources, such as 20 laptops and 15 iPads for the Teen Center, ensuring devices were fully operational and accessible.
- Developed and led web development and coding sessions for teens

Outlier - Freelance AI Quality Analyst

Remote (October 2024-February 2025)

- Designed **25+ AI test prompts**, identifying failure points that improved model accuracy by **20%**.
- Refined AI responses, enhancing adaptability and robustness.

Joy the Bookkeeper - Administrative Assistant Intern

Brooklyn, NY (July 2024 - August 2024)

- Processed and organized **financial records**, improving document retrieval time by **40%**.
- Managed scheduling and correspondence, ensuring smooth daily office operations.

Mouse Squad - Tech Support

Brooklyn, NY (September 2021- May 2022)

- Diagnosed and resolved **technical issues**, improving system efficiency and reducing downtime by **30%**.
- Managed **hardware/software inventory** to ensure staff had access to necessary tech resources.

Additional Experience: Assistant Teacher, Summer Youth Program | Ridgewood, NY — Supported faculty in integrating educational technology and enhancing classroom efficiency.

PROJECTS

Facial Recognition Attendance System (Python, OpenCV, Tkinter)

- Developed a facial recognition program to automate student attendance tracking.
- Integrated a GUI and a face dataset to store and verify student identities.

Local Event & Hangout App (Python, React Native)

- Collaborated with a 5-member development team to deliver a full-featured event platform, contributing to UI design, authentication, and performance testing.
- Assisted in system evaluation and feature rollout, ensuring smooth functionality across admin, user, and event management modules.

Skills

Programming: Java, Python, HTML, CSS

AI & Data: AI Quality Analysis, Prompt Engineering, OpenCV

Tools: Microsoft 365, Google Suite, Tkinter

Languages: English, Nepali, Hindi
